

Replacement and Agenda Meeting 4/2/2018

Lauren Castillo (District B)

- Financial Officer of UF Kitchens
- Increase sustainability by bringing food towards the homeless population
- Increase awareness of the involvement boards, these are useful for something that is helpful or off campus housing.

Christopher Harris (District B)

- Senator last term, he enjoyed his time and gained experience there
- Past experience that would remove the adjustment period
- Ideas for UF would include involvement on committees to also increase a blog from people in the caucus to post ideas.
- District List-serv/blog
- President of Greeks for Gainesville this has taught leadership skills, he was an AD for Growl, Speech and Debate and Divisions. This has helped him gain experience.

**Motion to pass line item transfer 2018-1029 for Gators for Asha in the amount of 180 dollars by Unanimous Consent.
Motion Passes.**

Shannon Moriarty (District B)

- Best way to represent her community, she didn't have a lot of contact with her senators for the past year or so, it would be a good way to bridge the gap between her community campus and the city.
- On campus, she would like to see environmental changes such as wasteful water from broken pipes and such and more campus between student government and student organizations
- Ideas for district B for safety this would include renovating the increase of District B to make it more lit.

Michael Greenwald (District B)

- Tried to always get involved, he is involved outside of student government
- Ideas for what to do with the district UBER safe rides is not applicable to everyone in the district to find other senators to expand UBER safe rides is applicable for all of our students.
- Idea for UF to install hooks at the bottom of the enables to put their backpacks there in case it rains they don't have to wet their backpacks.
- Hopes to implement these things quickly.
- Leadership involves communication and working with others, his involvement is applicable in this nature. Operations director for his

fraternity this is a very detail oriented position this establish strong communications skills. He is involved in CASA (Chinese American Student Association), he can be an asset to budget, not all...

Connor Haffey (District B)

- He wants to be a District B senator because he is the environmental science, how he is involved in policy. These changes are possible to be done within student government.
- Expand Communications with constituents.
- Sustainable Ideas, he is the president of AEPI he wants to get the paper-towel compost on campus also there is a lot of waste associated with this.
- Wants to exercise his passion for sustainability.

Tiffany Berkley (Allocations)

- On the other side, then potentially being on the actual committee in the future
- What can't be funded? Food beyond 10-15%, postage, t-shirts, travel for first year
- What is allocations budget within the fiscal year? 50,000
- Ideas: dealing with the judiciary on brining in the constitutions, a lot of SG orgs do not know that they can do that at the same time/ update the allocations video to show more information.

Hiram Velez Villanueva (District B)

- I want to be a district B senator to bring representation where it is needed
- No specific bills or regulations he is open to being more inclusive and representing under-represented groups on campus
- Leadership experience from EUPA and previously served as a drum major

Sydney Honeycutt (Allocations)

- Can help people find their place on campus and expand their involvement
- Ideas: Creating a forum for a new-organizations
- Can't be funded states the codes that can't fund and listed some
- What is the allocations budget? 50,000
- Allocations has the biggest potential for making an impact on campus; previous experience in not receiving the position allows her to get this committee
- She is the current director of sales for gator growl, she has a been able to have different corners of campus this allows her to deal with them in a very professional manner.

Ben Lima (Allocations-Phone)

- He chose to apply for this committee because he figured he would apply and he saw that over the course of the past several months he has been trying to get more involved he really liked the idea that allocations provides, the opportunity for student organizations to build upon their structure. "so figured I would fill out an application"

- Ideas: he wants to do a great job in going through the process to make sure everything is good about is that a lot of people aren't aware of the process, hold more workshops and office hours to talk about the work that allocations does
- Some things that can't be funded would be political lobbying, t-shirts, other things that are more standard can be.
- Allocations committee budget is 50,000 dollars.
- Practicing fiscal responsibility via fundraising and political campaigns a lot of this is fundraising so he has worked with money including a part time job and is part of the FL political review to determine what is legit and what is not

Maria Perez (Allocations)

- The main reason was because she currently serves as president of Lucha Latina, she was able to fill out the allocations cycle makes this a something that she is really passionate about. To help other smaller organizations.
- Allocations is governed by 800 codes with 50,000 on the actual fiscal year and 60,000 for the website
- Having automated emails to provide me with graphics for how to explain how to correctly fill out the allocations form and to create the tracker. If there is not enough budget to not fill out the budget to fix the video, then create a virtual finance forum, this would be much more hands on then organizations presidents and such can get more fluent in this.
- Then organizations can sign up for these workshops to learn more about the allocations cycle, that is because there is not a presence in social media to get more out there in sharing social media to increase storage.
- Create a checkout-storage program, where organizations can check out frequently rented items
- Outside experience has worked for this she works for city of Gainesville to maintain the media and the outreach this has helped her with her community. She can explain how to reach out to smaller organizations.
- Not funded by allocations postage, alcoholism, any foods that exceed 3.50 per head.

**Danielle made the move to add Student Senate Bill 2018-1030 funding for Interfaith Ambassadors in the amount of \$509.00 to the Agenda by unanimous consent.
Motion Passes.**

Libby made the motion to add Student Senate Bill 2018-1031 Chairperson Act to the Agenda by unanimous consent.

Motion Passes.

Libby made the motion to add Student Senate Bill 2018-1032 Livestream for Accountability and Transparency Act by unanimous consent.

Motion Passes.

Danielle made the motion to add Connor Haffey to the Agenda for the District B Permanent Replacement Seat by Unanimous Consent. Motion Passes.
